ORDER:

In the letter read above, the Engineer-in-Chief(R&B)Roads, Hyderabad, has stated that Kolleru – Upputeru road is an important Major District Road in West Godavari district. It connects NH 214, Bhimavaram – Gudivada (via) Kalidindi road (SH) and other number of villages such as Ajjamuru, Kuppanapudi, Kolanapalli and Kalla. The reach from Km 8/2 to 9/6, Km 9/6 to 13/3 and Km 13/3 to 14/580 were last renewed during the years 2006-07, 2007-08 and 2006-07 respectively.

2. He has also stated that due to monsoon rains and cyclonic storms, the road is badly damaged with very deep sunken portions of lengthy stretches and deep pot holes causing much inconvenience to the vehicular traffic. Hence it is essential to bring the road surface to traffic worthy condition by strengthening.

3. He has further stated that in the village limits, where built up area is abutting the road, the water is getting stagnated and thereby causing recurring damages to the road. Hence it is essential to provide the road surface with CC pavement in the village limits to arrest the recurring damages. It is further submitted that from Km 11/6 to 11/8 the road is running on the bank of drain and which is sinking and slipping towards drain side causing hazard to traffic. Hence it is required to construct retaining wall from Km 11/6 to 11/8.
